

# UNMANNED AIRCRAFT SYSTEMS MENTORSHIP PROGRAM CAPABILITY ASSESSMENT

14 February 2022

ERDCWERX, in collaboration with the U.S. Army Engineer Research and Development Center (ERDC), conducted a Capability Assessment to explore opportunities to develop a robust software application as part of a 12-month pilot which will supply data and document the need and power of mentorship on Unmanned Aircraft Systems (UAS). Proposed solutions will be evaluated by ERDC and considered for possible funding in 2022.

## Event Outcomes

- ERDCWERX received 5 submissions.
- Submissions were forwarded to the ERDC's Environmental Laboratory (EL) for review and downselect.
