

• INNOVATE. COLLABORATE. ACCELERATE. •

### COLLABORATE WITH THE U.S. ARMY ERDC

ERDCWERX, an innovation hub of DEFENSEWERX, provides a streamlined path to collaboration and contracting with the U.S. Army Engineer Research and Development Center (ERDC). Our events, tech challenges, and other opportunities make it easier and faster for innovators to propose solutions for consideration by ERDC. As a result of our partnership with ERDC, a growing number of contracts and agreements are being awarded to industry and academia.

## COLLABORATE WITH THE U.S. ARMY ERDC

### Submit an Innovative Solution

Visit [ERDCWERX.org](http://ERDCWERX.org) for current events, tech challenges, and other opportunities.

### License a Patent

ERDC's innovations are designed to solve military and civil challenges. Many of ERDC's patents are available for licensing.

Visit [ERDCinnovation.org](http://ERDCinnovation.org), a resource for licensing ERDC IP.

## ERDCWERX PROJECTS

Our projects include a variety of opportunities in focus areas including, but not limited to:

- CIVIL WORKS
  - ENGINEERED RESILIENT SYSTEMS
  - ENVIRONMENT AND ENERGY
- GEOSPATIAL AND REMOTE SENSING
  - INSTALLATIONS OF THE FUTURE
- MILITARY ENGINEERING
  - PROTECTIVE STRUCTURES AND SYSTEMS

## MORE ABOUT THE U.S. ARMY ERDC

The U.S. Army Engineer Research and Development Center (ERDC) seeks to collaborate with more innovators in industry, academia, and other sectors to address some of the nation's most challenging problems in civil and military engineering, geospatial sciences, water resources, and environmental sciences for the Army, Department of Defense, civilian agencies, and our Nation's public good.

As one of the most diverse engineering and scientific research organizations in the world, ERDC conducts research and development in support of the Soldier, military installations, and the Corps of Engineers' civil works mission, as well as for other federal agencies, state and municipal authorities, and with U.S. industries through innovative work agreements. ERDC's staff of approximately 2,100 employees and contractors manage an annual research program exceeding \$1 billion at seven laboratories in four states.

### Join our Ecosystem

*By joining our ecosystem, you will receive project announcements specific to your interests. There is no cost to join.*
